NOTES

1. The purpose of this publication is to promulgate the order of seniority of officers of the U.S. Navy on active duty. Although Reserve officers assigned to active duty in connection with the Training, Administration and Recruiting of the Reserve (TAR) Program are not active-duty list officers, they are listed for convenience in determining relative seniority among officers on the active-duty list. In the interest of efficiency and economy some of the information which was published in past editions has been deleted. All of the deleted data is available form other sources. The lists of officers are divided into three categories: (1) active-duty list officers; (2) naval reserve officers assigned to active duty in the TAR program; (3) chief warrant officers.

The names of officers below flag grade temporarily appointed under Title 10, U.S. Code, Section 5721 to higher grades are listed in the grades that would hold had they not been so promoted.

In all cases, precedence of officers must be determined by (1) current rank; (2) date of rank; and if (1) and (2) are the same, (3) active-duty list number.

2. Each competitive category, as defined in SECNAVINST 1400.1, is listed separately. The various groupings of officers in the publication are as follows:

		Begins on page
1. 11x0, 11x5 12x0, 12x5 13x0, 13x5 19xx	Unrestricted Line Officer, line officers under instruction as Medical, Dental, Chaplain, Judge Advocate General, and Medical Service Corps officers	1

24. 1637	Special Duty Officer (Intelligence)TAR	397
25. 3107	Supply Corps TAR	398

3. The active-duty list of unrestricted line officers is divided into segments designated as "Year Groups." Every active duty-list officer, by virtue of his/her position on the active-duty list, is in a particular year group. In most instances, except for officers who have been promoted under 10 USC 5721 only, and officers who at some point either have failed of selection or have been selected early for promotion, the year group of an officer generally corresponds to the fiscal year in which he/she was commissioned an ensign. (For those categories with constructive service, officers take the year group of their immediate contemporaries).

4. An officer who is selected for promotion but whose actual promotion to a higher grade has been delayed for any reason may be shown temporarily in a junior year group until he/she actually is promoted. At this time the officer will return to an active-duty list position in the year group with which he/she was selected.

5. The active-duty list numbers assigned consist of a whole number and a subnumber. Use of the subnumber permits additions to the official active-duty list and the inclusion of TAR officers without requiring renumbering of the list each time a gain occurs. Numbers may not be consecutive but they always will be sequential. For example, an officer with a number and subnumber of 064405-70 is senior to the officer with a number of 064405-85. Staff corps officers on the active-duty list having the same date of rank, rank according to seniority of corps as follows: (Read down in two columns)

Medical Corps
Supply Corps
Chaplain Corps
Civil Engineer Corps
Judge Advocate General's Corps
Dental Corps
Medical Service Corps
Nurse Corps

6. The names of Navy retired officers-regular and reserve and those on the Temporary Disability Retired List are shown in a separate publication which lists retired officers only. The title of that publication is "Register of Retired Commissioned and Warrant Officers, Regular and Reserve, of the United States Navy" NAVPERS 15,939.

7. In matters involving honors, ceremonies or preferences, precedence shall be given to retired officers who served on active duty in the rank in which retired vis-a-vis retired officers of the same grade holding the grade on the retired list by virtue of a combat citation promotion.

8. Errors or omissions other than TAR officers should be reported by letter to the Commander, Naval Military Personnel Command, Attention NMPC-22. Errors or omissions involving TAR officers should be reported by letter to Commander, Naval Military Personnel Command, Attention NMPC-93. It should be noted that names are limited to 27 characters, including spaces, so that some names are not complete.

9. a) Initial distribution of this publication is made to ships and aircraft squadrons in commission, and to staffs by allowances published in BUPERS Instruction 5605.1 series, and to shore activities by allowances based on established needs.

b) Commanding Officers of ships and stations needing copies in excess of established allowances should make letter requests to the Commander, Naval Military Personnel Command (ATTN NMPC- 1654H) giving justifications of need for the extra copies.

c) Action for shipment of initial commissioning allowances of publications, including this publication, is originated by the Commanding Officer, Naval Publications and Forms Center. Philadelphia, Pa. 19120, without requisition.

10. Officers in the grade of ensign commissioned with a date of rank between 2 October 1985 and 1 October 1986 take precedence in their respective grade among themselves in the order of alphabetical listing of names within date of rank until the determination of precedence under existing regulations. Therefore, active-duty list numbers have not been assigned to ensigns with dates of rank from 2 October 1985 to 1 October 1986.

11. The active-duty list numbers assigned herein were effective 1 October 1986. Officers having a date of rank on 1 October 1986 which was announced by ALNAV after 1 October 1986 may not appear in the higher rank.

TABLE OF OFFICER DESIGNATORS

The officer designator codes are four-digit numbers used to group officers by categories for personnel accounting and administrative purposes and to identify the status of officers. These codes identify, through the first three digits, the categories in which officers are appointed and/or designated and, through the fourth digit, the status of the officers within the various categories. A listing by the first three digits of the officer designator codes and their description is published herein.
